1. INTRODUCTION AND ACCEPTANCE OF THE TERMS OF USE

1.1. These Terms of Use (the “**Terms of Use**”) are a binding agreement between SAVL OÜ, a company incorporated under the laws of Estonia, with a registered office at Harju maakond, Tallinn, Lasnamäe linnaosa, Peterburi tee 47, 11415, Estonia (the “**Company**”, “**us**”, “**our**”, or “**we**”) and you, the person who uses the Services and/or the Website and/or the App (the “**Client**”, “**you**”, “**your**”, or “**yourself**”).

1.2. By your use of the Website and/or App and/or opening an account to use our services, you agree to comply with the terms and conditions governing your use of the Website and App and the services offered through the Website and App (the “**Services**”).

1.3. In addition to the Terms of Use, you should also read our Privacy Policy (the “**Privacy Policy**”) carefully, which sets out how we collect and use your personal information.

1.4. We may suspend, modify, remove or add to the Services at any time.

1.5. The Company has no obligation to check whether users are using the Services and/or the Website and/or the App in accordance with the Terms of Use, as updated from time to time.

2. CHANGES TO THE TERMS OF USE

2.1. The Company, at any time, may amend, update or modify the Terms of Use (collectively and individually, the “**Modification**”), including, without limitation, as a result of legal and regulatory changes, security reasons and changes to our Services. Unless otherwise expressly stated in the Terms of Use, we will notify you of any such Modification by posting a new version of the Terms of Use on the Website and in the App information. The new version of the Terms of Use will take effect 7 days after its publication on the Website or in the App information accordingly (or earlier if required by any law, regulation or directive which applies to either us or you). Your use of the Services after any such Modification represents your acceptance of such new version of the Terms of Use.

2.2. If you do not agree with any Modification to the Terms of Use, your sole and exclusive remedy is to terminate your use of the Services and close your Account (as defined below).

3. DESCRIPTION OF THE SERVICES

3.1. Exchanging Digital Assets

The Services allow you to exchange certain types of digital currency (collectively and individually, the “**Digital Assets**”). The Company may amend the list of Digital Assets at any time at its sole discretion.

3.1.1. You may start exchanging Digital Assets on a per transaction basis for other Digital Assets, or for USD, EUR, or other fiat money (collectively and individually, the **"Fiat Money"**), accepted by other users and implemented as a trading option within the App by the Company, by placing or responding to Advertisements within the section of the App labeled "Market" (the **"Market"**), as long as in the Company's sole discretion, you have successfully opened your Account and satisfied the KYC process (as described below).

3.1.2. We reserve the right to refuse to process, to limit, or to cancel or reverse, any transaction and/or the number of your transactions and/or Advertisements in our sole discretion, even after funds have been credited to or debited from your Account, where applicable.

3.2. Transactions via the "Market"

3.2.1 Deposits

3.2.1.1. In order to initiate any transaction on the Market, you must first maintain sufficient funds with the Company in the case of Digital Assets, or, in the case of Fiat Money, with the Custodian of your choice, by way of deposits, to cover your desired transaction.

3.2.1.2. Digital Assets you deposit shall be delivered to a custodial digital wallet belonging to the Company, and such deposits shall be recorded under your Account.

3.2.1.3. Fiat Money you deposit independently from the Company, with a credit and/or debit card company and/or bank (the **"Custodian"**). Such deposits are not recorded within the App. You understand and acknowledge that the Company has no knowledge of the individual Custodian whose services you and/or other users of the App use, or any Fiat Money deposited with the Custodian. The Company is not a party of, has no influence over and therefore bears no responsibility for any transaction or agreement between you or any other user of the App and the Custodian.

3.2.2. Transactions

3.2.2.1. In order to facilitate a Transaction, you may place one or more advertisements on our platform, on the Market, wherein you may offer to trade Digital Assets against other types of Digital Assets, or to buy or sell Digital Assets for Fiat Money (the **"Advertisement"**).

3.2.2.2. Digital Assets transactions are initiated by one user of the App responding to the Advertisement of another User of the App through the Market with a trade request (the **"Transaction"**).

3.2.2.3. By placing an Advertisement you are making a legally binding offer to whomever responds to the Advertisement through the Market with a trade request and agree to be bound by the terms and conditions of the Transaction (such as exchange rate, amount of the Digital Asset to be traded and terms of payment). You may withdraw from this offer only by deleting the Advertisement from the Market, as long and insofar as another user has not responded to the Advertisement through the Market with a trade request, or where it is expressly permitted by the terms and conditions of the transaction, or these Terms of Use.

3.2.2.4. By making a trade request through the Market in response to an Advertisement you are agreeing to a legally binding contract and agree to be bound by the terms and conditions of the Transaction (such as exchange rate, amount of the Digital Asset to be traded and terms of payment). When sending a trade request, you may need to select from options made available in the

Advertisement or accept any freeform terms and conditions set out by the advertiser, which are displayed on the Advertisement page.

3.2.2.5. The terms and conditions of the trade must be in accordance with these Terms of Use. In case of discrepancy, the terms of these Terms of Use have precedence.

3.2.2.6. When you are selling Digital Assets for Fiat Money, you understand that it is your responsibility to make sure that you have received the full amount of Fiat Money you are owed according to the terms and conditions of the Transaction and these Terms of Use, that the payment was not made by a third party to the trade and that it was made according to your instructions given to the buyer. After you have released a trade to the buyer it is not possible to cancel, reverse, dispute or otherwise recover or return the Digital Assets to you.

When you are buying Digital Assets for Fiat Money, the Fiat Money payment must be sent by the same person or entity who is the holder of the buyer's account. Receiving, making, providing, or attempting to receive, make or provide payments to or from third parties to the trade is forbidden and is considered a violation of these Terms of Use.

3.2.2.7. Upon commencement of a trade the parties of the trade are granted access to a new chat window within the app, wherein they may discuss the specific trade (the "Trade Chat"). All communication relevant to the trade must happen solely within the Trade Chat and in such a way that it is readily available for the Company's support staff to review. Communications relevant to the trade may not happen outside of the Trade Chat: neither in a private chat within "Community" section of the app, nor by any other means. Communications within Trade Chats are not considered private communications between you and other users, but the Company is also a party to such communications, and may access and otherwise process such communications in accordance with our Privacy Policy.

Communication that has not occurred within the App through the Trade Chat or that has been hidden, encrypted or otherwise obstructed from view is not taken into consideration during any dispute review and dispute resolution.

3.2.3. Withdrawals

3.2.3.1. At any point you may make a request for a withdrawal to withdraw Digital Assets from your Account. The Company shall designate certain periods during the day at which the actual withdrawal can occur pursuant to your request and the Company's approval. Upon approval, the Company shall deliver the applicable Digital Assets to the personal digital wallet designated by you, and you acknowledge that any delivery of Digital Assets may not be immediate or may be subject to delays.

3.2.3.2. Your withdrawals from your account with the Custodian are subject of your agreement with the Custodian. You understand and acknowledge that the Company is not a party of, receives no information of, has no influence over and bears no responsibility for such transactions.

3.2.3.3. The delivery of Digital Assets may also be subject to the confirmation process inside a blockchain, and as a result, deposits or withdrawals of Digital Assets, as applicable, are not complete while such confirmation process is in a pending state.

3.2.3.4. The Company cannot guarantee that any Custodian will enter into an agreement with you, and/or open an account for you. This depends on a variety of factors, including, but not limited to, your location, your identification information, limitations that may be imposed by the Custodian, and/or any

third party payment processors. Likewise, the Company cannot guarantee that your Custodian will accept any Fiat Money. It is your responsibility to ensure that the Custodian that you wish to use will accept your funds.

3.2.3.5. Instructions. You understand and agree that the exchange of Digital Assets as well as any delivery of Digital Assets to you, or crediting or wiring of Fiat Money to you, will depend on the instructions and details you shall provide to the Company and/or to the Custodian, as applicable, and that the Company shall not be liable for any errors in the instructions or other details you provide to the Company or the Custodian, as the case may be.

3.2.3.6. At any time, the Company has the right to impose upon you a required minimum amount of Digital Assets that you need to maintain in your Account in order to use the Services.

3.3. Dispute resolution for trades involving Fiat Money via the "Market"

3.3.1. When a buyer in a trade of Digital Assets for Fiat Money (the **"Buyer"**) and a seller in the same trade (the **"Seller"**) are in disagreement over the trade they made via the Market, either party or the Company can start a dispute (the **"Dispute"**) to initiate a mediation process on the Digital Asset subject to the trade. Disputed trades are reviewed and resolved by our support staff.

3.3.2. Disputes can only be started on trades that are open and are marked as paid by the buyer, but have not yet been released by the seller. Trades that are not marked as paid by the buyer, or that have been released by the seller, or cancelled by the buyer, or automatically cancelled, or have already been disputed and resolved, are considered completed and cannot be disputed, reversed, or altered.

3.3.3. Availability. When you have placed an Advertisement for a trade involving both Digital Assets and Fiat Money, which has not expired, and/or when you are involved in a such a trade, you are obligated to remain active and available until the trade is completed, or canceled, or until the Dispute concerning the trade is resolved and a period of 120 days has passed or one party has requested a review of the Dispute resolution in accordance to section 4.7 of these Terms of Use and the review has either been completed or denied, whichever comes last. During this time you must provide a response to any request by our support staff in a disputed trade within **twenty-four hours** of receiving it in your in-App inbox or trade chat, or you may be deemed unresponsive (**"Unresponsive"**) and the dispute may be resolved against you for this reason alone.

3.3.4. Review. During a review of the Dispute the Company may give you instructions in relation to the Dispute and/or to your account that you are obligated to follow. The instructions given to you may require you to provide proof of payment, or proof that you have or have not received payment (e.g. bank transaction history), additional ID verification, photo-, audio- or video evidence, or any other documents and/or information deemed relevant by the Company according to their best judgement. Failure to follow the instructions may lead to the dispute being resolved against you.

3.3.5. Dispute resolution process. A Dispute is resolved by us and/or our support staff assigning the Digital Asset subject to the still open trade to either the account of the Buyer or the Seller, once the Dispute resolution criteria are met.

3.3.5.1. The Company may resolve a Dispute fully or partially in favor of the Buyer when at least one of the following criteria are met:

(a) the Buyer has provided payment according to the terms and conditions of the Transaction and the Advertisement and these Terms of Use and according to the instructions provided by the Seller in the

trade chat feature within the App and/or within the Advertisement's payment details and the Buyer has provided sufficient proof that the payment was made according to these conditions,

(b) the Seller has become unresponsive.

3.3.5.2. The Company may resolve a Dispute fully or partially in the favor of the Seller when at least one of the following criteria are met

(a) the Buyer has not provided payment, or not provided payment in full, and/or not in accordance with the terms and conditions of the Transaction and/or the Advertisement and/or these Terms of Use and/or the instructions provided by the Seller in the trade chat feature within the App and/or within the Advertisement's payment details

(b) the payment made by the Buyer has been held/frozen/stopped by the payment provider, e.g. the Custodian

(c) the payment was made by a third party to the trade and/or the payment was made from a payment account not registered in the name of the Buyer,

(d) the Buyer has become unresponsive.

3.3.5.3. If the Buyer or the Seller provides fraudulent information or fraudulent documents or makes false claims or otherwise tries to force a certain outcome of a Dispute, the Dispute may be immediately resolved against the responsible party.

3.3.5.4. On such rare occasions, where neither party fulfill the resolution criteria, or it is, for any other reason, unclear or not possible to determine, which party has fulfilled the Dispute resolution criteria, the Company may decide to resolve the Dispute by splitting the Digital Asset subject to the trade between the Buyer and the Seller evenly or unevenly, by assigning their assigned shares to the Buyer's and the Seller's account respectively.

3.3.6. Review. If you believe the Company has resolved a dispute you are a party of in a way which is not in accordance with these Terms of Use and/or the applicable law, you may request a review. To do so, you are required to specifically request a review by contacting customer support via the App or the contact details provided on the Website, no later than **56 days** after the dispute resolution has been given.

3.3.7. Trading Fees. Any Trading Fees in relation to the transaction shall remain unaffected by the Dispute and must be paid in full.

3.3.8. Limitation of Liability. The Dispute resolution is a service that we provide free of charge and which will be conducted in accordance with these Terms of Use. We assume no responsibility for the outcome of the Dispute resolution and in relation hereto.

In the event of an incorrect Dispute resolution which is corrected in accordance with these Terms of Use, we assume no liability for any damage, costs or inconvenience.

In any event, our liability for Dispute resolution is limited to the amount of fee payable to us by you for the disputed Transaction.

3.4. Transactions via the "Wallet"

3.4.1. Description

3.4.1.1. The “Wallet” section of the app (the **“Wallet”**) is an interface for your wallets within any Blockchain that stores the respective Digital Assets supported by the Wallet (the **“Blockchain”**). The Wallet allows you to access your wallets within the respective Blockchains and to send Digital Assets from those wallets to other wallets within the same Blockchains. At no point will the Company ever take custody of Digital Assets traded via the Wallet. The Wallet is only capable of supporting the Digital Assets designated by the Company. The Company may amend the list of supported Digital Assets at any time at its sole discretion.

3.4.1.2. When you create a wallet on a Digital Asset blockchain, the wallet software generates a cryptographic public key (the **“Wallet Address”**) and private key pair that you may use to send and receive any supported Digital Assets within the respective blockchain. When you register your Account within the App, you will be asked to connect your Blockchain wallets with your Account. Once you connect your Blockchain wallets to your Account, you may proceed using the Wallet as an interface for your Blockchain wallets.

3.4.2. Technical risks of transactions initiated via the Wallet

3.4.2.1. In order to be completed, any Virtual Currency transaction created with the Wallet must be confirmed and recorded in the Digital Asset ledger associated with the respective Blockchain. These Blockchains are decentralized, peer-to-peer networks supported by independent third parties, which are not owned, controlled or operated by the Company.

3.4.2.2. The Company has no control over any Blockchain and therefore cannot and does not guarantee that any transaction details you submit via our Services will be confirmed on the respective Blockchain. The transaction details you submit via our Services may not be completed, or may be substantially delayed, by the respective Blockchain used to process the transaction.

3.4.2.3. Once transaction details have been submitted to a Blockchain, the Company cannot assist you to cancel or otherwise modify your transaction or transaction details. The Company has no control over any Blockchain and does not have the means to facilitate any cancellation or modification requests.

3.4.2.4. In the event of any network disruption within the Blockchain, the Company may not be able to support activity related to your Digital Assets. In the event of such a disruption, your transactions may not be completed, completed partially, incorrectly completed, or substantially delayed. The Company is not responsible for any loss incurred by you caused in whole or in part, directly or indirectly, by a network disruption within a Blockchain.

3.5. Services’ Availability

The Company cannot and does not guarantee the availability of the Services at all times. You acknowledge that the Company reserves the right, at all times, to delay, deny, or make unavailable, at any time and at its sole discretion, any or all of the Services, any part of the Website and/or App and/or the Website and/or App in its entirety. The Company shall have no responsibility or liability whatsoever in connection with the unavailability of any Service and/or the Website and/or App, whether caused by the Company by any third party or “force majeure”. You explicitly understand that any such event may cause a delay in the execution or processing of your orders and transactions, and you irrevocably release the Company of any liability in this regard.

For the purpose of the Terms of Use, “force majeure” means an event beyond the reasonable control of the Company, including without limitation, acts of God, acts of government, fire, flood or storm damage, earthquakes, labor disputes, war, and riot.

3.6. Trading Fees

You further agree to pay the Company certain applicable trading fees in accordance with the terms set forth at the App (the "Trading Fees"). Such Trading Fees shall be set-off automatically from the proceeds of your applicable transaction(s) on a per transaction basis and in the same form of Digital Asset currency as your proceeds of the applicable transaction(s).

In the event our requests for documents are not met by you to our satisfaction, the Company may at its sole discretion terminate the Account. Should the documents fail our internal security checks – for example, if we suspect that they have been tampered with, or are in any way provided to mislead or misrepresent – we shall be under no obligation to accept such documents as valid, and we are under no obligation to provide feedback on the exact nature of our findings with regards to these documents.

During this verification process, we may request certain documents from you, which may include proof of address, such as a utility bill, proof of your payment method and a copy of a government issued identity card. We reserve the right to demand certified or notarized copies at your expense. You understand that we shall be under no obligation to accept any documents as valid. Pursuant to our KYC procedure, in addition to documentation, we may also choose to verify your identity through a video and/or audio call conference (collectively, the "KYC process").

5.7. Along with our KYC procedure, we have implemented certain checks to prevent money laundering (the "AML policy"). Money laundering means the disguising of the source of proceeds derived from criminal activity so that it appears as though it came from legitimate sources of income. In order to prevent any criminals from laundering or attempting to launder criminal proceeds through our Website, App or Services, the Company has set forth the AML policy.

5.8. You acknowledge that in order to conduct the verification process and/or background checks, in accordance with our KYC procedure and AML policy, we may perform inquiries, directly or indirectly through third party service providers to prevent fraud, suspicious activity, misidentification, money laundering or any other prohibited activity. 5.11. Security Alerts. The Company does not guarantee to provide you with security alerts or any other alert and the Company shall not be held liable for not providing any alerts. In no event will the Company be held responsible for any damages or losses which you may sustain as a result of compromise of your Account login credentials and/or wallet information other than due to the gross negligence of the Company.

We reserve the right to change such limits in our sole discretion.

5.16. Personal Wallet Address for Execution. For the purpose of executing any transaction, you guarantee to use and provide the virtual wallet address owned by you exclusively and which is under your sole and full control to which the Digital Assets purchased by you will be transferred.

5.17. Refund or Cancellation Policy. Your transaction order to exchange Digital Assets may not be cancelled by you, if approved by another User or the Company. We may cancel an order for reasons which include but are not limited to technical error, market abuse or manipulation, or your failure to pass our KYC process. Any refunds shall be at our discretion.

You should consult your own legal and/or tax advisors concerning your specific financial situation.

15.2. Market Makers. The Company reserves the right to engage with Market Makers and to provide its Services to Market Makers.

16. RISK FACTORS

You should carefully consider and evaluate each of the following risk factors and all other information contained in these Terms of Use before using any of the Services.

16.1. An inherent risk exists that losses will occur as a result of buying, selling or trading anything on a market. You may increase or lose value in your assets at any time due to price volatility, especially in the crypto-currency market, and the potential loss in trading or holding Digital Currencies can be substantial.

16.2. We do not guarantee that any Digital Assets will currently or in the future maintain a certain value or market liquidity, and you understand that the current value or price of Digital Assets can drop as low as zero at any point. You acknowledge that we also do not guarantee that you will be able to sell the Digital Assets to any third party.

16.3. Historically, currency, and fiat money in particular, have been backed by banks and government entities, or backed up by commodities, such as silver or gold. However, Digital Assets is not regulated by any central bank or other government authority. Instead, Digital Assets are backed by technology and trust, and currently, there is no bank or government regulator that can take measures to protect the value of the Digital Assets in a crisis, issue more currency, or balance the price fluctuations.

16.4. Digital Assets, when transferred, will be controllable only by the possessor of unique private keys relating to the addresses in which the Digital Assets are held. The theft, loss or destructions of a private key required to access Digital Assets is irreversible, and because the Company does not have access to those private keys, such private keys cannot be restored by the Company, and the Company will not be responsible for Client's loss of access to its personal virtual wallet. Also, due to the nature of Digital Assets, any technological difficulties experienced by the Company could potentially prevent the access or use of a Client's Digital Assets.

16.5. THE EXCHANGE OF DIGITAL ASSETS IS CONSIDERED A RISKY TRANSACTION WITH HIGHLY SPECULATIVE OUTCOMES. MARKETS FOR DIGITAL ASSETS HAVE VARYING DEGREES OF LIQUIDITY. SOME ARE QUITE LIQUID WHILE OTHERS MAY BE THINNER OR ILLIQUID. THE COMPANY DOES NOT GUARANTEE ANY PROFIT FROM TRADING OR ANY OTHER ACTIVITY ASSOCIATED WITH THE SITE. IN LIGHT OF THE RISKS ABOVE MENTIONED, WHICH ARE NOT A COMPREHENSIVE LIST, YOU SHOULD CAREFULLY CONSIDER IF HOLDING DIGITAL ASSETS IS SUITABLE FOR YOU DEPENDING ON YOUR FINANCIAL CIRCUMSTANCES.
